

SUMMER SAFTEY TIPS

- All dogs in the town of Scituate are required to be licensed through the Town Clerks office.
- All dogs are to be leashed at all times when off the owners property.
- Dogs are not allowed on any public or private beach within the town of Scituate from June 15th to September 15th from 10am-6pm.
- PLEASE pick up after your dog. IT'S THE LAW!
- Please educate your children on the importance of not approaching unfamiliar dogs/cats and to always ask permission before interacting with someone's pet.
- During the summer months leave your dog at home! The heat, whether it's inside a car or out in the direct sun, can prove deadly for a dog.
- Remember lots of fresh clean water for all your pets.
- Please spay and neuter your pet. If you are having financial difficulty call 781.545.8709 and ask about Loretta's Fund.
- This office recommends all cats remain INDOORS. An indoor cat leads a happier, healthier, longer life!
- All your pets MUST be inoculated for rabies! This is especially important here in Scituate where rabies has been confirmed for many years. Rabies is deadly. This simple step could save your pets life!
- If you see an animal you believe is being treated poorly or are experiencing a problem, please call Animal Control @ 781.545.8709

Thank you!
